

Declaration of Support for the Stability and Peacefulness of a Future Palestinian State

Whereas, The undersigned country ("We") believes that a Palestinian state should be established alongside the State of Israel.

And Whereas, We hold that it is desirable for such a future Palestinian state to be stable, successful, and peaceful towards all of its neighbors.

And Whereas, We acknowledge the potential for certain internal or external individuals, entities, or countries ("Hostile Elements") to attempt to undermine the stability of the Palestinian State, to alter its regime or government, to change its political system through militant methods or subversive acts not deemed legitimate in most democratic regimes, or to act aggressively against one or more of its neighboring countries or to incite others to such acts (each, a "Hostile Action").

And Whereas, We recognize the right of the future Palestinian state to defend itself against Hostile Elements and understand that as a nascent state, it could benefit from the assistance we are able to provide.

Therefore, We hereby commit as follows:

1. We will not provide financial support, weapons, and/or military guidance, either directly or indirectly, to any Hostile Elements.
2. We will endeavor to lead and support efforts aimed at reducing the capabilities of Hostile Elements to plan, carry out, and incite Hostile Actions.
